Copy of the Report of the Committee of Awards at the Fair of the

AMERICAN INSTITUTE

NEW YORK, 1855.

To the FLORENCE SEWING MACHINE CO. for the Best Family Sewing Machine,

HIGHEST Premium: Gold MEDAL!

REASONS:

1st.—Its simplicity and great range of work.

2d.—The Reversible Feed Motion.

3d.—The perfect finish and substantial manner in which the Machine is made.

4th.—The rapidity of its working and the quality of the work done.

5th.—The self-adjusting Tension.

The Florence was awarded the first and highest premium at the State Fair of California, the only Fair on the Pacific coast at which any two double thread Sewing Machines were exhibited in competition in 1855.

The Florence received the only premium awarded, by the Mechanics' Institute of San Francisco, in 1854 and 1855, to any Sewing Machine Co. or Agent. The claim of a competitor to a medal is without any foundation whatever.

Wherever the Florence has been brought in competition with other Sewing Machines, it has always been declared the best. It is the most substantial, the most efficient, and its use is easily learned. Every Machine sold is guaranteed in the full sense of the word.

DR. MAGGIE'S

PILLS AND SALVE!

These Life-giving remedies are now given to the world. For over a quarter of a century of private practice, the ingredients in these

LIFE-GIVING PILLS!

Have been used with the greatest success. Their mission is not only to prevent disease, but to cure the usual concomitants of disease by which the patient is suffering and re-invigorate the failing system. To the aged and infirm a few doses of these valuable PILLS will prove to be

A VERY FOUNTAIN OF YOUTH.

For in every case they add new life and vitality, and restore the young and middle-aged, they will prove most invaluable, as a ready, specific, and starting medicine. Here is a remedy, that has been used for over three hundred years ago, and never found. He looked for a fountain that would restore the old to vigor and make youth ever

AN ETERNAL SPRING!

It was left for this day and hour to realize the dream, and show in one glorious flash, the magic that made it fair.

THESE FAMOUS REMEDIES!

Cannot stay the flight of years, but they can force back and hold old diseases that might triumph over the aged and the young. Let none hesitate then, but seize the favorable opportunity that offers. When taken as prescribed—

FOR BILLIOUS DISORDERS

Nothing can be more productive of cure than these Pills. Their almost magic influence is felt in the most distressing cases of biliousness, and the most distressing diseases are removed. These remedies are made from the purest

VEGETABLE COMPOUNDS.

They will not harm the most delicate female, and can be given with good effect in prescribed doses to the youngest babe.

FOR CUTANEOUS DISORDERS

And all eruptions of the skin, the SALVE is most invaluable. It is the most searching effects to the very root of the evil.

WEDNESDAY, JANUARY 2, 1867.

INDIAN MURDERS.—A gentleman who arrived at St. Louis from Fort Benton on the 4th ult., reports that a party of trappers who were going down the river in an open boat were attacked by Indians near the mouth of the Yellow Stone river and the entire party murdered. But a short time since we published an account of the massacre of thirty U. S. troops, with the officers, and a little while before the murdering of nineteen prospectors. Surely this information has reached the official ear of Government, and if so, why has the Government been so backward in sending a competent force to chastise these wretches? There is no lack of men or arms, and if there was, a simple call for volunteers would be responded to in a manner as to leave no doubt as to the feelings of the people toward a race of beings who have proven themselves unworthy the consideration and leniency shown them for the last century. The foolish opinion entertained by persons farthest removed from the scenes of depredations committed by these fiends is fast dying out, and a more practical, common sense idea is being obtained; instead of the red man being clothed in a character of lofty sentiment, a disregard for the common and incidental misdeeds of life, a strict adherence to honor and the teachings of the Great Spirit, he is found to be a low, disgusting, loathsome, sneaking, deceitful wretch, barely a step above the lowest of the brute creation, incapable in a majority of instances, of receiving the benefits of either civilization or Christianity. These being the facts in regard to the status of the Indian as shown by the efforts of both the Government and the various religious denominations for the past fifty years, the only sure method is to exterminate all Indians that are not now civilized. If the measure of their usefulness has not been filled, they have shown themselves inadequate to the task and ought not longer be allowed to clutter the earth. They deter others from doing what they refuse to do; they are a foul blot upon the beautiful country they inhabit; they obtain subsistence only through robbery and murder; they produce nothing and lay in waste that produced by the good and God-fearing; they respect neither age, sex nor condition of the human family, but ruthlessly butcher and murder all who come in their path; they have proved themselves enemies of the Christianized world—as an act of justice to the thousands they have tortured into millions of deaths should be swept out of an existence they have demonstrated themselves unworthy longer to enjoy.

COUNTY POLITICS.

Mr. Editor:—In the course of a few months (say six or thereabouts) the Union men of Placer county will be called upon, through delegates of their selection, to meet in Convention and select the incumbent for several lucrative and desirable positions for the ensuing two years. In view of the brief period to elapse before everything in that connection will inevitably have been "cut and dried" and "put up," I deem it highly proper that the thinking members of the party should give the matter some consideration. There are a few points to which I would fain call the attention of some of your more immediately neighboring patrons, for which purpose I crave a share of your valuable space. In the first place I wish to submit the following exhibit of the Union, Democratic and aggregate vote of the county, taken by Townships, for Presidential electors in 1864. It stands as follows:

Tp.	Union	Dem.	Total	Union Maj.
1.	123	37	160	86
2.	183	200	383	183
3.	238	215	453	238
4.	515	234	749	281
5.	292	199	491	93
6.	226	136	362	99
7.	178	134	312	44
8.	172	57	229	115
9.	323	200	523	28
10.	150	147	297	3
Total.	2314	1476	3790	838

Of the desirable offices held at that election, the Sheriff, Clerk and Superintendent of Common Schools hailed from Township No. 6, which gave an aggregate vote of 374 and Union majority of 99; the Treasurer was from Township No. 5, on the same "divide" and in the same neighborhood, the Recorder was from Township No. 7—"divide" again, the balance of the County officers and the Collector of our District were from Township No. 2, which gave a Union majority of only 33, while Township No. 4, polling nearly one-fifth of the total County vote, giving over one-third of the Union majority, was honored with nothing but the Assessors' office, her nominee for even that position selected by Township No. 3. From this showing it is apparent that Township Four, in that election rose superior to the narrow doctrine that charity should either begin or end at home. With her large preponderance of Union votes, she certainly entitled herself to credit for a disinterested selection of a model set of County officers. I am of the opinion that persons who might fitly and with entire propriety aspire to any one of the County offices might be found in this Township, while it is admitted by everybody that it would be difficult, if not impossible, to improve on the present incumbents. In the next County Convention our Township will be entitled to within a very small fraction of one fourth, (34 out of 138) of the whole Convention. It is intimated, which I consider entirely credible, that our present entire set of efficient officials would be willing to sacrifice their private interests and would be honored and flattered by receiving the further disinterested support of our pondering Number Four. At all events we must not have the audacity to present candidates for more than one position—that privilege is reserved for No. 6, which, indignant at No. 4 for presenting candidates for both Sheriff and Treasurer, took to itself the nomination of Sheriff and Clerk and threw in the School Superintendent, "to make things even." If our people feel that they have not won the need of complete gratitude for their pious rousing majorities for efficient outsiders, I would suggest that they give their loins for another gallant fight—first, yielding the poor little Assessors' office which is a trifling affair, so be grievously alone!

SKIMPOLE.

GOOD PAPER.—The issues of the Sacramento Union on Monday and yesterday mornings fully substantiate the reputation that journal has enjoyed for many years past of being the best newspaper in the United States. No paper that comes under our eye—and we see nearly all, both from Europe and the Atlantic States—can approach the Sacramento Union in point of diversity of news, soundness of editorial articles, or more useful selections. This paper has an extensive circulation, and is deservedly popular with all classes.

PAINFUL ACCIDENT.—Yesterday afternoon, says the Stockton Independent, of the 29th, while a number of boys were playing with a toy cannon, or small pistol, near Cornhill Buildings, they loaded the thing with powder and pigeon shot, and fired at target on a fence. Behind the fence happened to be a little girl, five years old, daughter of S. Marks, and the discharge sent a single shot into her right eye, which will probably result in the destruction of that organ. Last evening, notwithstanding medical aid had been promptly rendered, little Flora was suffering intense pain.

THE SAINTS.

We refer, of course, in the above caption to that species of saints who illustrate their religion or passion at Salt Lake and the region round about. Since the down-fall of slavery Mormonism remains the sole blot upon our National escutcheon; steps ought to be taken at once by the Government to send Mormonism to that bourne to which its foster brother, slavery, has gone. It would be well to have the same chapter of our future history show that while these "twins of barbarism" were friendly and loving in life in their death they were not deadly. The plea in justification put in by the Mormon, is that the Christian bible itself does not condemn polygamy, and that the rights of conscience and religious liberty are solemnly guaranteed by our National Constitution. It is too true that our Bible is not as clear and decisive on this point as we might desire. The example of several men of God, in the Old Testament would seem to teach that it is not morally wrong for a man to have several wives, while the writings of Paul in the New Testament would seem to teach that it is best for a man not to have any wife at all. Between these two extremes, the Old Testament and the New—the exhortations of Solomon and the rebuke of Paul, it seems to us that "the true way" to take a middle course and allow every "fair grown man" a wife. The Mormon argument that the rights of conscience guaranteed by the Constitution should protect them in their barbarous and loathsome practices reaches the very height of ridiculousness or impudence. The Salt Lake saints may be very conscientious in their religious opinions, a majority of them undoubtedly are; but the conscience is a mere creature of education or circumstance. There has been ten thousand murders committed since the dawn of civilization by persons acting conscientiously, where there has been one committed by a person acting in violation of his conscience. The old Puritans really believed that they were doing God's service when they murdered their innocent neighbors for witchcraft. In former times there lived in India a class of fanatics who believed it a religious duty to murder every stranger they met on the highways. Should we be afflicted by such a class of religious things it would hardly be claimed that the provision of our Constitution, guaranteeing the liberty of conscience, would protect them in their peculiar religion. So with Mormonism; if its conscience produces results contrary to reason, common sense and the intelligence and moral sense of the age, it cannot claim and ought not to receive any Constitutional protection.

But Polygamy is not the only crime for which these Salt Lake Saints ought to be overhauled by Congress. For years, Salt Lake City has been a city of refuge for murderers and thieves. Every now and then a Gentle is murdered, but no matter how clear the proof, it is utterly impossible to convict the murderer before a Mormon jury. A Gentle would stand about as much show of getting his rights in a Mormon Court as a California Fenian would of getting one quarter of a drop of pure whisky in an overhauling goblet of the article usually sold under that name at a California bar. This Mormon settlement is situated in the very heart of the continent; it is soon to be an important point on the line of the great continental railway; life and property should be rendered safe there; the rich valleys of the territory should be thrown open for the cultivation and improvement by saints of another species and the mines of the territory, heretofore sealed up by the Mormon leaders, should be made subject to location and development. If this cannot be done in any other way, we do not know but reason and common sense would justify the spreading of the Gospel over the barbarous and benighted region by means of the gibbet and the sword. Congress is moving in the matter. Ben Wade, the Aristides of the Senate, sees the injustice of allowing the rascals at Salt Lake to have half a dozen wives when there are so many young men and old men in the country perishing for the want of one. We hope the matter will not be patched up in a spirit of compromise or dicker. Let the work be done thoroughly. To build up a prosperous and respectable State it is best like building a house—to start from the "bed rock."

NEARLY AROUND THE WORLD.—The following dispatch, says the Alta of the 21st ult., was received last evening from New York. It was sent by telegraph from Irkutsk to St. Petersburg, and thence by mail to New York. If it had been sent by telegraph across the European lines, and then by cable, the time would have been materially shortened. The dispatch is from Thos. W. Knox, of the New York Herald, who left San Francisco last summer to cross the Pacific Ocean to the Amoor River, and thence through Siberia and Russia to Paris, and from thence to New York, which was the point of starting, and completing the voyage around the world. The dispatch is addressed to Colonel Charles S. Bulfinch, Engineer-in-Chief of the American-Russian Overland Line, with whom Mr. Knox went to the Amoor last June:

IRKUTSK, (EASTERN SIBERIA) Nov. 25th, 1866.
To New York, Dec. 20th, 1866.
Colonel Charles S. Bulfinch, Reached here today via Ghijiga, Okhotsk, Amoor River and Kiachta. Wrote to you fully by courier from St. Petersburg. Major Abaza is entirely certain of success of the telegraph enterprise. The Russian line is finished to within six hundred miles of the mouth of the Amoor. The rest will be finished in the coming year. Great interest is felt everywhere in your enterprise. Shall reach St. Petersburg in January.

THOS. W. KNOX.

CIRCULAR FROM THE UNION STATE CENTRAL COMMITTEE.—This Committee has issued a circular to the members of the various Union County Committees. In which they say: "Reports from Washington indicate the passage of a law convening the Fourth Congress on the 4th of March next. In that event the necessary legislation will be had to enable this State to elect present. The Congressional delegation in session for the present. The election will necessarily follow closely upon its announcement, and but few days can be had for preparation. From the best information in possession of this Committee, not more than half of the Union voters of this State are registered, and unless active steps are taken to prepare their registration within the next forty days, we shall be very ill prepared to go into an election. The election of three electors, Radical Union, Congressmen is a matter of the first importance to the State and Nation, and one well worthy of our best exertions. California has not hitherto been behind her sister States in this regard, and she will not now be if proper action is had in the matter of registration. We suggest that sub-committees be at once appointed from your bodies or from the party at large, whose duty it shall be to canvass their respective precincts and see that every Union voter is registered. Conventions for the nomination of candidates will be called by the respective District Committees, and the proper appointment of Delegates made."

STAGES TO THE COLORADO.—It is not generally known that two well established lines of stages are now running weekly from Los Angeles to the Colorado river. One, owned by Bantling & Co., goes to Fort Yuma, and the other, owned by the Arizona Stage Company, goes to Hardyville. To Hardyville, the trip is made in about two days. To Hardyville, at present, five days are required, but there will soon be stations upon the road and changes of animals, which will enable the proprietors to make the trip in three days. Governor McCormick and wife, of Arizona, lately came through by this route, and speak highly of the stage accommodations as now existing. At an early day, a line from Hardyville to Prescott, the capital of the Territory, will be started, and the time from Los Angeles to Prescott will be one week. The mail now goes by this route.—S. F. SEMI-WEEKLY ENQUIRER.

UNION CHURCH.—There will be service at the Union Church on Sunday next, morning and evening at the usual hours.

Rev. John Francis, of Oakland, will officiate at this Church on Sunday the 18th, instant.

MITE SOCIETY.—We are pleased to learn that the single ladies of our town have signified their willingness to take charge of this very useful organization, and endeavor by their efforts and good cheer to regenerate its energies. In which we hope they will be entirely successful. They wish to understand, however, that they consent to this arrangement only on the condition that they receive, from time to time, such counsel and advice from the matrons of our town as may enable them, with their best endeavors to accomplish the object of the society—raising funds to pay off the indebtedness of the Union Church. For the purpose of organizing, we are requested to state that there will be a meeting of the young ladies favorable to the society, held at the Union Church this (Wednesday) evening at 7 o'clock. The Church will be properly warmed and otherwise made comfortable for the meeting.

After accepting to build a tunnel over the portion of ground that covered the canyon above the town of Alta, and incurring considerable expense, the Dutch Flat Water Company have abandoned the project of tunneling the place and have decided upon building an entire new ditch. The ditch is to be commenced a short distance below Herbert's ranch, and run on the upper side of the railroad until it reaches a point below Alta where it will intersect the old ditch leading the water into the Company's main reservoir. The dimensions of the ditch will be, depth, 4 feet; width at the bottom, 3 feet; width at the top, 5 feet, and will have a capacity to carry about two thousand inches. The new portion of this ditch will be about one-half mile, with a fall of twelve inches to the mile. It will be completed in fifteen days from today.

"Tug Holidays in this place passed off in a very quiet and orderly manner; no brawls or quarreling being indulged in except on one occasion where an individual from the outside, who, it is said, had been watching other parties drink, became incensed at "Little Dan" and knocked him into a convulsion making a bundle of eggs assume, each a convex shape; with this exception, other reigned in Dutch Flat. To this state of things may be ascribed sundry reasons, the best of which we think is, that those naturally inclined to pugilistic encounters were not here, or felt in a good humor, or having joined the Good Templars kept sober. Be persons what they may, we had order, decency and quiet, something that rarely has been in California towns of three thousand inhabitants, during Christmas holidays.

I. O. O. F.—At a regular meeting of Olive Lodge, No. 81, I. O. O. F., held December 26th, 1880, the following officers were elected for the ensuing term: P. M. Thomas, N. G. C. M. Kopy, V. G. James, Jameson, R. S. D. Paschen, P. S. R. Hudepohl, Treasurer.

The ball which came off at the Gold Run Hotel on Monday evening last was an exceedingly agreeable affair, affording ample sociable enjoyment to those who attended. The number present being sufficient to make it pleasant without the disagreeableness of a jam. Those who have spoken of it agree in pronouncing it the most pleasant affair of the season.

The mines in the vicinity of Gold Run, we learn, are yielding larger returns this season than at any former time. We make this announcement with feelings of gratification, as no people are so acquainted with better deserve the rich yields of Fortune than the residents of our sister town.

ALL RIGHT.—The telephone wire between this place and Nevada City, which have been down during the late storm, are once more in working order.

HUNG BY A MOR.—On Christmas day two men who were being conveyed by the sheriff to jail in New Uim, Minnesota, were rescued by a mob and hung. The men hung and a man named Spinner had been engaged in a game of cards, over which a dispute arose in which Spinner received several stabs.

NEWS FROM MEADOW LAKE.—We clip the following items of news from the Meadow Lake Sun of the 26th:

The machinery for the Reduction Works, after innumerable delays, has at length arrived, and the mill will be in readiness to commence operations with the New Year. It is a fine substantial affair and one that would do credit to any mining community, being fitted with the most approved styles of machinery for saving gold and sulphurates. We are also informed that the price for reducing ores will be fixed at a low figure that all may be able to avail themselves of its use. The Board of Trustees have been in session, for four days, during the present week, settling up the affairs of the company, preparatory to starting.

We are pleased to learn that the Eagle Company have received their new machinery, and it is hoped, are another week passed, that the mill will be in complete running order. They are pushing the work on their new mill with zeal, and are taking out large quantities of good pay rock. Great praise is due the Company for their energies and exertions in prosecuting the work so vigorously.

For the past seven days one of the most severe snow storms that ever swept the Sierras, has been raging, accompanied by a wind, which is little less than a hurricane. The snow, where two or three buildings stand together, has drifted to the depth of 20 feet and upwards. On the plaza, in front of our office, it measures not less than 10 feet.

THE NITRO GLYCERINE EXPLOSION AT ROCHESTER.—The Rochester Union of December 4th says:

About five o'clock this morning the inhabitants of the northern part of the city, on both sides of the river, were startled by an explosion which shook their dwellings distinctly. Those residing in the vicinity of the railroad lines were of the impression that a locomotive had exploded, and the explosion was in the tunnel near the High Falls. The tunnel has been excavated a distance of 270 feet through the solid rock, and for the past week the new explosive compound, nitro glycerine, has been used for blasting. The work has been prosecuted by two gangs of hands, each consisting of four men. The night gang were in the tunnel at the time. One of the men, named John J. Redington, Thomas M. Norton, Alexander Mann and James Nolan. At nine minutes to five o'clock a powder blast was fired, which was immediately followed by a terrific explosion, which threw some of the rock some fifty feet from the blast. The men mentioned, who had been working in the tunnel, had just emerged from the tunnel and who were standing directly over the entrance were standing about fifty feet from the mouth of the tunnel. The concussion lifted them bodily and forced them toward the brink of the tunnel where they were found. Mc Norton and Redington within a foot of the brink, and Mann a few feet in the rear. The ladder by which the men descended into the tunnel was shattered and hung over the precipice and some little time elapsed before the unfortunate men could be brought to the ground above. They were hauled up with ropes. Mc Norton expired about nine o'clock. Redington had one or more ribs on his right side broken and his arm and face bruised. It was feared that he sustained internal injuries, but is expected to recover. Mann received contusions, but not serious ones. It is thought, and his speedy recovery is looked for. The wooden air trough and also barrows in the tunnel were blown into atoms and the can which contained the glycerine could be found. The rock was not loosened and the tunnel was uninjured by the explosion. There can be no question but that the glycerine was exploded by the jar produced by the powder blast, and this when it was fifty feet distant.

"YES SO"—"EXACTLY!"—Solon Shingle said; they were there "every time." If he felt "wily" in the morning, he took Plantation Bitters; if he felt weary at night he took Plantation Bitters; if he lacked appetite, weak, languid, or mentally oppressed, he took Plantation Bitters, and they never failed to set him on his pins square and firm.

Will cure Nervous Headache, Cold Extremities and Feverish Lips, Sore Throat and Febrile Breath, Flatulency and Indigestion, Nervous Affections, Excessive Fatigue and Short Breath, Pain over the Eyes, Mental Despondency, Prostration, Great Weakness, Salivary Complexion, Weak Bowels, &c.

Liver Complaint and Dyspepsia. After a long research, we are able to present the most pleasant, the most remarkable cure for those horrid digestive diseases, the world has ever produced. Within one year over six hundred and forty thousand persons have taken the Plantation Bitters and not an instance of complaint has come to our knowledge.

It is a most effective tonic and agreeable stimulant, suited to all conditions of life. The report that it relies upon mineral substances for its active properties are wholly false. The original quality and high standing of these goods will be sustained under every and all circumstances. They have already obtained a sale in every town, village, parish and hamlet among civilized nations. These imitations, try to come as near our name and style as they can, and because a poor article cannot be sold as well as a good one, they find some support from parties who do not care what they sell. Be on your guard. See our private stamp over the cork.

For sore-throated horses, the poll evil, ringbone and swellings, the Mexican Mustang Liniment never fails. For wind colic, scratches, big-head and splint, the Mexican Mustang Liniment is worth its weight in gold.

Cuts, bruises, sprains and swellings are so common and certain to occur in every family, that a bottle of this Liniment is the best investment that can be made.

It is more certain than the doctor—it saves time in sending for the doctor—it is cheaper than the doctor, and should never be dispensed with.

In lifting the kettle from the fire, it tipped and scalded me terribly. * * * The Mustang Liniment extracted the pain and caused the sore to heal rapidly, and left very little scar.

CHAS. FOSTER, 420 Broad St., Phil. Mr. S. Litch of Hyde Park, Vt. writes: "My horse was considerably worrished, (clavus) but since the use of the Mustang Liniment, I have sold him for \$150. Your Liniment is doing wonders up here."

REDINGTON & CO.'S COLUMN.

REDINGTON & CO.'S ESSENCE OF JAMAICA GINGER.

THIS valuable preparation, containing in a highly concentrated form all the properties of the Jamaica Ginger, has become one of the most popular domestic remedies for all diseases of the stomach and digestive organs.

As a tonic it will be found invaluable to all persons recovering from debility, whether produced by fever or otherwise; for whilst it imparts to the system all the glow and vigor that can be produced by wine or brandy, it is entirely free from the reactionary effects that follow the use of spirits of any kind.

It is also an excellent remedy for females who suffer from difficult menstruation, giving almost immediate relief to the spasms that so frequently accompany that period.

It gives immediate relief to Nausea, caused by the riding in a railroad car, or by sea-sickness, or other causes. It is also valuable as an external application for Gout, Rheumatism, Neuralgia, &c.

REDINGTON & CO., SOLE AGENTS for the PACIFIC COAST.

STOP THAT COUGHING! SOME OF YOU CAN'T, and we pity you. You have tried every remedy but the ONE destined by its intrinsic merit to subvert all similar expirations. It is so surprising that you should be reluctant to try something else after the many experiments you have made of trashy compounds foisted on the public as a certain cure; but

NEWELL'S PULMONARY SYRUP is really the VERY BEST remedy ever compounded for the cure of Coughs, Colds, Sore Throat, Asthma, Whooping Cough, Bronchitis and Consumption. Thousands of people in California and Oregon have been already benefited by the surprising curative powers of

Newell's Pulmonary Syrup and with one accord give it their unequalled approbation. We now address ourselves to all who are acquainted with this, the greatest Panacea of the age, for the healing of all diseases of the Throat and Lungs, assuring you that

Newell's Pulmonary Syrup has cured thousands and it will cure YOU if you try it. This invaluable medicine is pleasant to the taste, soothing, healing and strengthening in its effects, entirely free from all deleterious drugs, and perfectly harmless under all circumstances. GRAEFENBERG UTERINE CATHOLICON

If faithfully used according to directions will cure every case of Diabetes, and greatly mitigate the troublesome effects caused by a relaxation of the outlet of the bladder. It is a most successful remedy for the Gravel and other diseases of the Kidneys and Bladder, and for female diseases is unequalled. The Catholicon uniformly cures Protrusion of Uteri, Whites, all irregularities of the Monthly Turns, Suppressions, Incontinence of Urine, Bloating and irregular swellings, and all diseases of pregnancy. The specific action of this medicine is immediate and certain upon the Uterine and Abdominal Muscles and Ligaments; restoring them to healthy state as those of childhood and youth, so that patients who have used the Graefenberg Company's Uterine Catholicon, cannot sufficiently express their gratitude for the relief afforded.

IMPORTANCE OF HAVING DAVIS' PAIN KILLER ALWAYS ON HAND.—Wonderful Cure of the Rev. Dr. L. B. Braten, Missionary in India, who was stung by a scorpion. Extracts from his letter, published in the Baptist Missionary Magazine: "For the first time since I have been in India, I have been stung by a scorpion. I went out this morning to my exercise, as usual, at early dawn, and having occasion to use an old box, on taking off the cover I put my hand on a scorpion, which immediately resented the insult by thrusting its sting into the palm of my hand. The instantaneous and severe pain which darted through the system is quite incredible: what an awfully virulent poison their sting must contain! I knew no remedy, but I remembered DAVIS' PAIN KILLER, and found it to be true to its name after a moment's relief, I saturated a small piece of sponge, bound it on my hand, and went about my duties, feeling no more particular inconvenience.
